# An overview of a country's Tender Market **at a glance**

A quick yet effective way to understand how the **Pharma Tendering Market** behaves across countries.

## **A very decentralized and complex pharmaceutical market.**

Tendering happens mainly on a regional level, through **Local Health Authorities** or Hospital purchasing groups.

This results in different tendering approaches for 19 different regions & two provinces.

The average tender duration is 24 months, with an option to extend for 2 more years.

**Price** is the main award criteria.

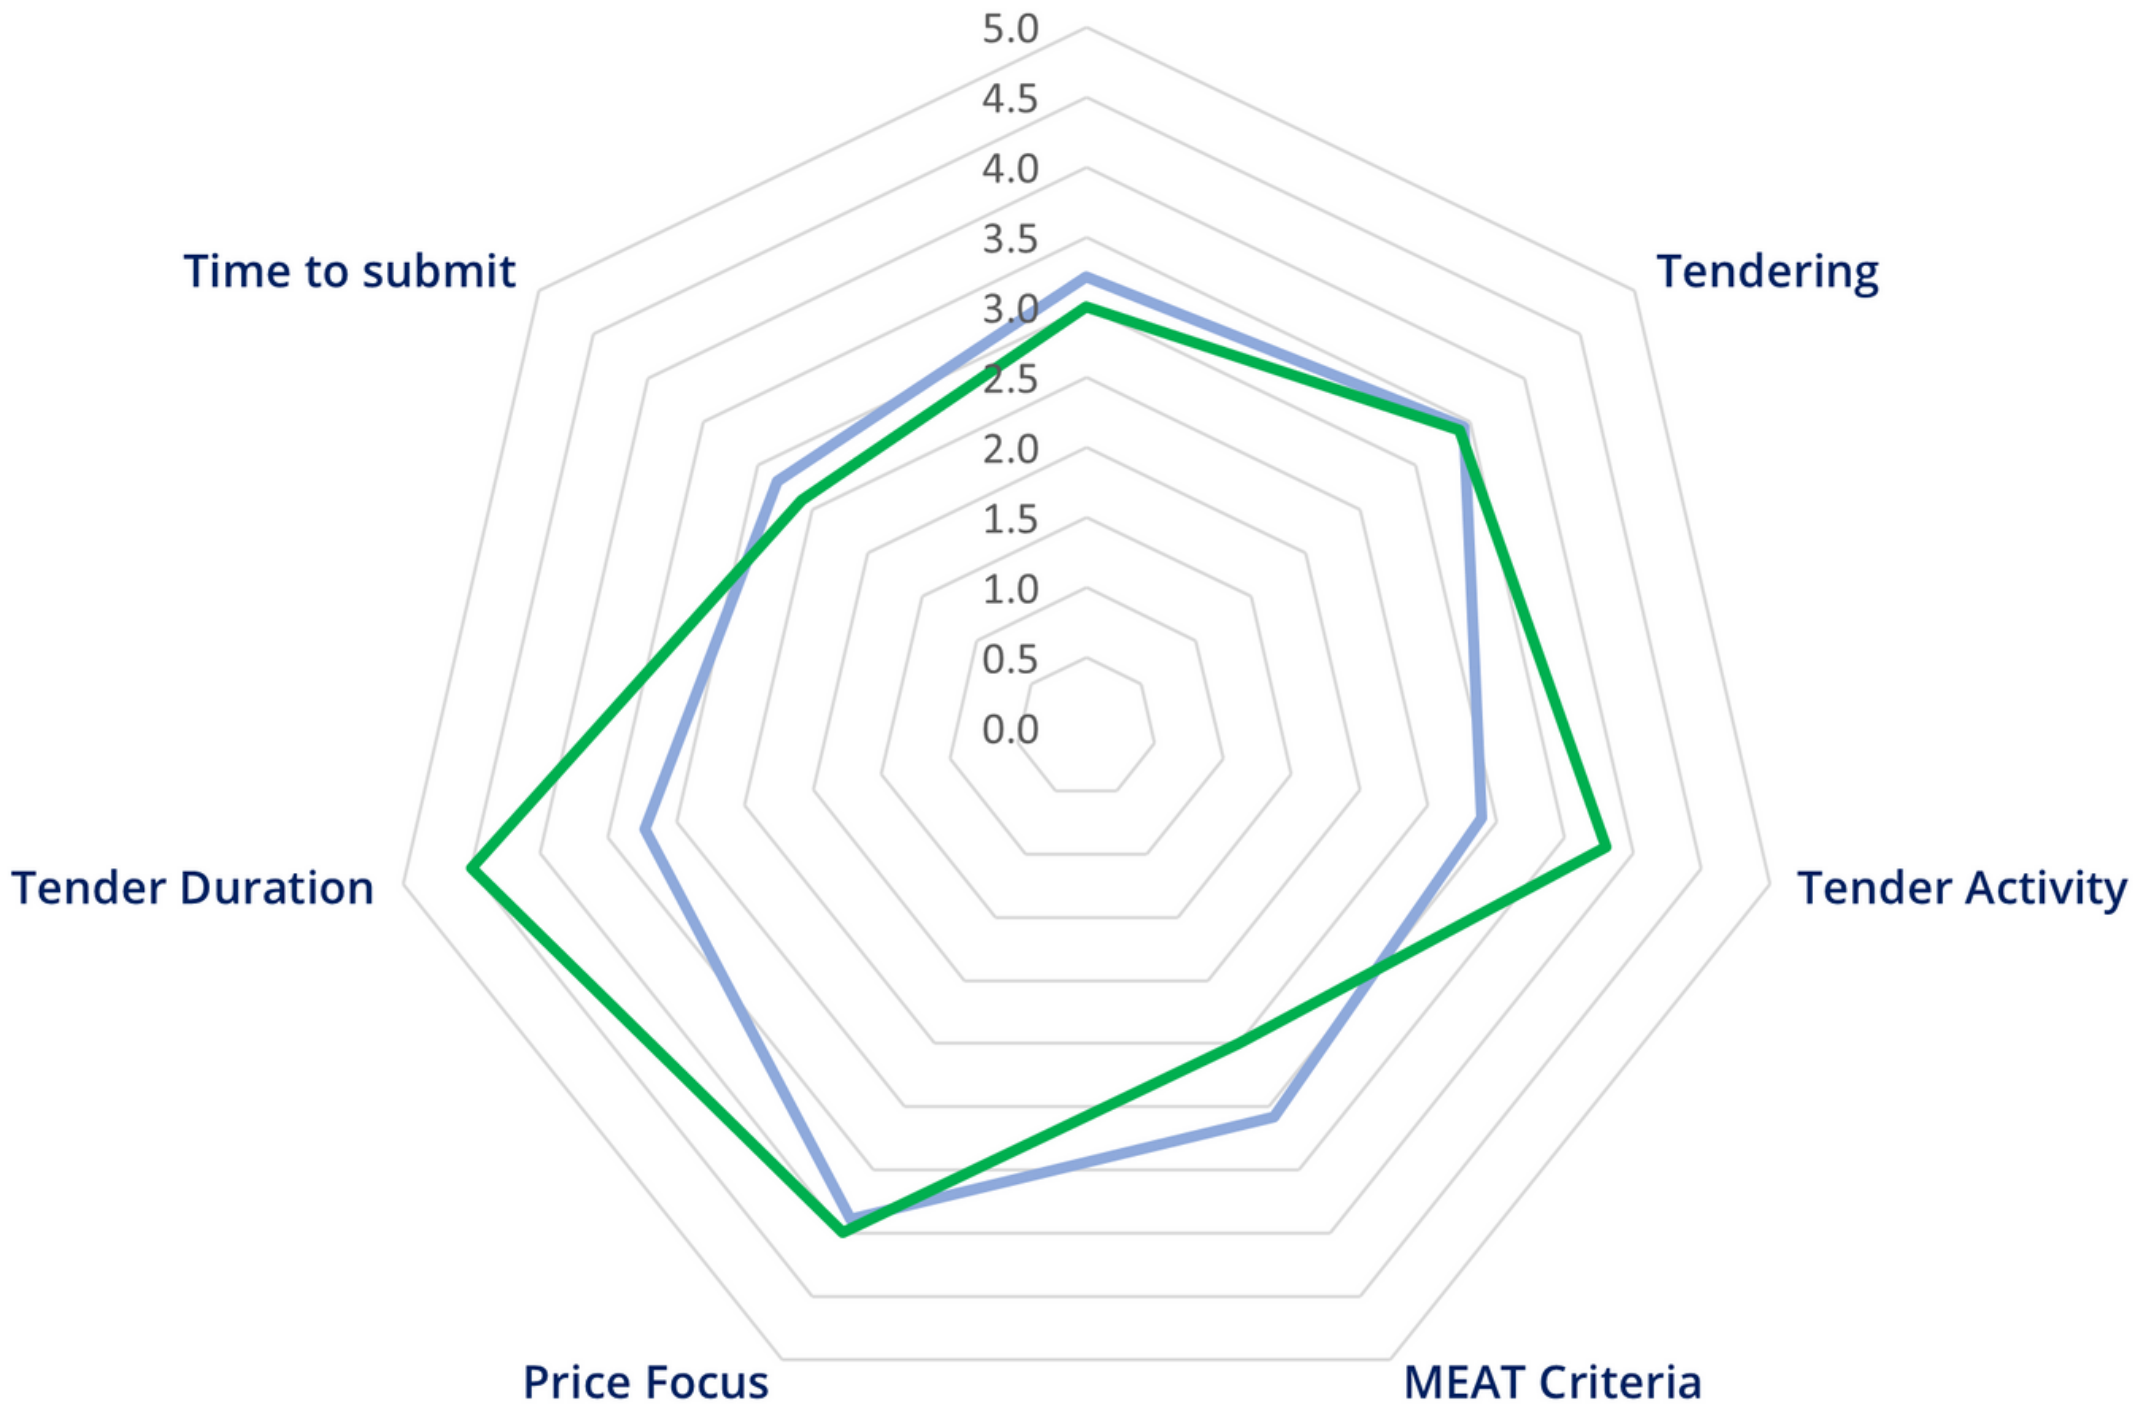

# ITALY T&C MARKET

Average Europe Italy

## Contracting

## Sources & Graph Explanation

The 'spider-net' indicates the relative importance or length (in the case of 'tender duration' and 'time to submit') of the country in-scope, versus a European average.

The spider-net is based partly on publicly available data, partly on market expert interviews and partly on growpal and CubeRM tender market know-how. It is an indication and estimate without a claim of full completeness and accuracy and it can vary - even within a country - based on tender authority, region or product portfolio.

Spider-net dimensions: 'Contracting' indicates the relative level of importance for contracting & negotiations / 'Tendering' indicates the relative level of tendering importance / 'Tender activity' indicates the number of annual tenders / 'MEAT criteria' indicates the relative importance of non-price award criteria / 'Price focus' indicates the relative importance of price / 'tender duration' indicates the average length of the tender duration / 'time to submit' indicates how much time on average a pharma-company has time to submit a tender.
